

PRISM360

It's not enough anymore to think that if you build it they will come. Nowadays, you have to reach consumers where they are in order to complete the transaction. That means registers at the stadium, offering sidewalk sales and remote locations—even running several physical locations with the same POS. This is where **PRISM360** comes in.

PRISM360's reliable and secure cloud-based technology adds the speed and efficiency you need for a premier customer experience. It enables you to operate your POS solution at any retail location on campus or wherever your customers may be. There is less training, less time running reports and overall, less time worrying about your POS system.

FEATURES

- Touchscreen technology with easy-to-use workflows and quick transaction times
- Reliable and secure cloud-based data center
- Multiple interfaces for a variety of payment options at the register
- Quick Menu Mode: Ability to handle transactions across a variety of retail and food service locations.
- Ability to handle high-volume transactions
- Card swipe for associate login and inputting customer information into a transaction
- Made-to-order and scale-supported transactions
- Printed or emailed receipts
- Ability to sell merchandise by weight; ideal for convenience stores and dining halls

DETAILS

- Complete integration with Kitchen Display Systems (KDS), scales and campus systems including other commonly used ERP systems, financial accounting systems, and debit card solutions, such as Banner, Colleague, PeopleSoft or Microsoft Dynamics GP, Blackboard, CBORD/Diebold, Debitex, and General Meters

- Ability to process sales of both SKU and non-SKU items to accommodate a variety of retail environments: traditional bookstores, convenience stores, coffee shops, and dining locations
- Customizable options available through an administrative tool to meet the needs of any type of retail location
- Decreased outages and secure customer and card information through the use of point-to-point encryption (P2Pe) and tokenization
- Decreased training time for new team members, resulting in lower training costs
- Tech specs:
 - Registers: SurePOS 500, TCx Wave, TCx Wave Mini
 - Scanners: LS4208, DS9208
 - Other: Windows 7 or higher
