

ICS Full Download

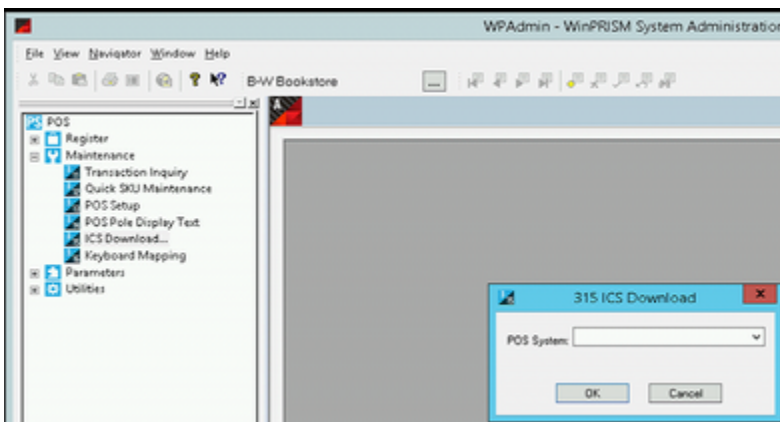

ICS Full Download within the WinPrism System

NOTE: A Full ICS download can take several minutes and must be completed while the store is in a closed status.

If your store is using a '3 and 1' type of system, where the WinPrism/Accounting/POS are all on one computer, an ICS Full download will not be needed.

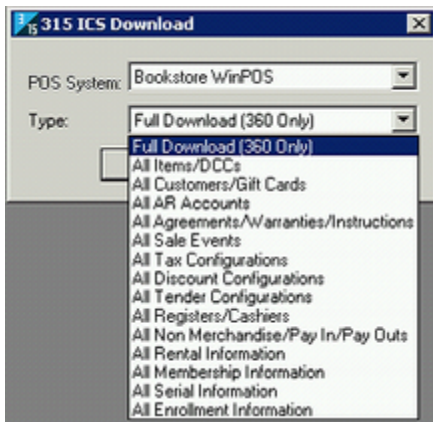

1. Open Wpadmin/PRISM CORE Admin icon on any workstation.
2. Select the POS tab and expand out on the option of 'Maintenance'.
3. From there, select the 'ICS Download' option.
4. Click on the drop down and select the POS location then click on 'OK' button.

A prompt will be displayed saying your download has been set to occur.

FULL DOWNLOAD for PRISM CORE USERS

1. Open Wpadmin/PRISM CORE Admin icon on any workstation.
2. Select the POS tab and expand out on the 'Maintenance' option.
3. From there, select the 'ICS Download' option.
4. Click on the dropdown, select the POS location, then click on 'OK' button.

5. Click on the "Type" option and choose the data to be downloaded for your POS system.
